

STATEMENT OF DOE 84

I've suffered greatly, not only at the hands of my abuser but also by an organization that didn't do enough to protect children who participated in Children's Theatre's plays and programs. I'm coming forward to tell my story. My story is just one of many. The window to come forward is closing soon. I encourage anyone who had been sexually abuse as a child actor or student to come forward so your story can be told too.
