

### Statement of Plaintiff

I hope that by filing this lawsuit other children are saved from what I endured and those who have already been hurt find the strength to come forward and seek the healing they deserve. After reporting the abuse to the Diocese of Rockville Centre and law enforcement, I expected Fr. Greg to be removed and the parishioners to be warned. When no warning came and I could no longer bear the thought of other children being unknowing exposed to dangerous priests I filed this lawsuit.

As a child, I was sexually abused by Fr. Greg. With counseling and a supportive family I now know that I did nothing wrong. My identity appears on court documents because I am not afraid but I ask that you contact my attorneys with any questions and allow me to continue to heal.

I urge survivors and those with information regarding sexual abuse or its cover-up to speak up so children are safer.
