Purpose & Background

For decades numerous courageous survivors have spoken their truth and brought lawsuits related to the sexual abuse of children in the Catholic Church throughout New York. Survivors became plaintiffs in civil lawsuits and together with their attorneys were able to reveal secret Church records through the courts and civil litigation process. These lawsuits resulted in the release of identities and histories of sexually abusive individuals, those engaged in sexual misconduct, and the release of documents and records reflecting the knowledge of institutions that covered up the sexual abuse and misconduct.

The Anderson Report on Sexual Abuse in the Diocese of Rockville Centre contains the names of diocesan priests, religious order priests, and other religious clerics associated with the Diocese of Rockville Centre, including those who were assigned within or working in the geographic boundaries of the Diocese, who have been accused of sexual misconduct with minors. The information in this *Anderson Report* is derived from publicly available sources, claims made by survivors to the dioceses and religious orders responsible for the offenders, and legal settlements made as a result of claims for sexual abuse.

While lawsuits were filed involving many of these alleged perpetrators, the vast majority of the claims against these individuals have been settled or have not been fully evaluated in a civil or criminal court. Accordingly, the allegations should be considered just allegations and should not be considered proved or substantiated in a court of law. All individuals should be considered innocent until proven guilty. In some situations, the statute of limitations has expired preventing the cases from being heard in a court of law.

It is believed that the Diocese of Rockville Centre has not made available to the public, the full history, knowledge, and context of their sexually abusive agents and employees. *The Anderson Report on Sexual Abuse in the Diocese of Rockville Centre* is intended to raise awareness about the important issue of sexual abuse and sexual misconduct, provide the public with vital information including assignment histories, and provide awareness to survivors. The assignment histories provided are approximations which were compiled from the *Official Catholic Directory*, *BishopAccountability.org*, statements attributed to Diocesan and Religious officials, Diocesan and Religious records, and media reports.¹

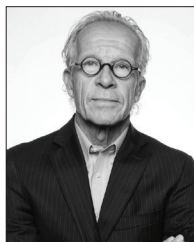

Supporting Rockville Centre Abuse Survivors for Decades

Jeff Anderson & Associates, P.A.

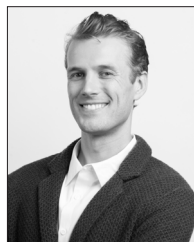

Jeff Anderson & Associates pioneered the use of civil litigation to seek justice for survivors of childhood sexual abuse. The attorneys have advocated for survivor rights in New York for many decades, having filed their first lawsuit in New York on behalf of a child sexual abuse survivor in approximately 1988. In addition to seeking legal accountability, the firm has supported survivors of abuse by bringing public awareness to the cause and they have testified before numerous state legislatures endorsing reforms to the statute of limitations. The firm also filed the first case alleging public nuisance against a New York diocese for refusing to disclose the histories and identities of sexually abusive priests. Through its work, Jeff Anderson & Associates seeks to bring hope, healing, accountability, and justice to survivors of sexual abuse.

In most cases, childhood sexual abuse goes unreported or victims/survivors break their silence many years after the abuse occurs. While there are many legal barriers to prosecuting those responsible for the abuse, our firm has worked to overcome these barriers for more than 30 years. As pioneers of child protection through civil litigation, we are aggressively committed to this cause and capable of handling the most complex legal issues in courts across the United States.

We are smart, tough, and relentless, but the virtue that ultimately sets us apart is our compassion. We are people who feel deeply and work tirelessly in response to an unjust world. We have a reputation for being the best at what we do and that begins and ends with our ability to support, protect, and guide survivors along their journey toward justice and healing. As sexual abuse lawyers we have represented thousands of survivors of sexual abuse against individual offenders and the intuitions that harbor these offenders. We are engaged with a national network of attorneys who share our mission, and when we take a case, we exhaust every imaginable resource in order to serve our clients' needs.

The Diocese of Rockville Centre

The Roman Catholic Diocese of Rockville Centre is the newest of the eight dioceses in the State of New York. The Diocese was established by the Holy See in 1957 and comprises the counties of Nassau and Suffolk (except Fishers Island). Prior to 1957, these areas were encompassed by the Diocese of Brooklyn. The Diocese is currently composed of 133 parishes, 57 schools and 109 other facilities. There currently are 304 priests of which 107 are externs from other dioceses and 21 are members of religious orders. According to Church records, there are 289 permanent Deacons, 60 religious brothers, 875 religious sisters, and 1,869 lay teachers in the Diocese.

Bishop John Oliver Barres has been leading the Diocese since 2017. His career began in the Diocese of Wilmington where he served as chancellor. Prior to his arrival on Long Island, Bp. Barres led the Diocese of Allentown, Pennsylvania. The Attorney General of Pennsylvania identified Bp. Barres' role regarding sex abuse cover up in the 2018 Pennsylvania Grand Jury Report.

Suffolk County Grand Jury Report

The Suffolk County Supreme Court empaneled a Grand Jury in May 2002 to investigate the Diocese of Rockville Centre, its priests and parishes. The Grand Jury heard testimony from 97 witnesses and considered hundreds of documents. The Grand Jury made certain conclusions based upon the stated facts:

Criminal Acts

“Priests assigned to and working in the Diocese of Rockville Centre committed criminal acts in violation of New York State Penal Law Article 130, Sex Offenses, and other statutes designed to protect the health, safety and welfare of children. These criminal acts included, but were not limited to, Rape, Sodomy, Sexual Abuse, Endangering the Welfare of a Child and Use of a Child in a Sexual Performance. Not one priest in the Diocese who knew about these criminal acts reported them to any law enforcement agency.”

The Suffolk County Grand Jury reviewed personnel records, including the secret archive files of 43 priests. They had unprecedented access to thousands of pages of records, memos, notes and other confidential documents and examined the response of the Diocese to the criminal conduct of priests.

“The Grand Jury concludes that the history of the Diocese of Rockville Centre demonstrates that as an institution they are incapable of properly handling issues relating to the sexual abuse of children by priests.... They conceived and agreed to a plan using deception and intimidation to prevent victims from seeking legal solutions to their problems.”
