Purpose & Background

In 2003, the California legislature opened a one year, retroactive window for survivors of child sexual abuse to file civil claims against their perpetrator and the institution that covered up the sexual abuse. As a result of the courage of survivors and the lawsuits brought by survivors' attorneys, numerous lawsuits related to the employment of sexually abusive priests in California, including the Diocese of San Bernardino, were filed. For the first time significant numbers of survivors became plaintiffs in civil lawsuits and their attorneys were able to pry open secret church records using the civil legal process. These lawsuits also resulted in the release and disclosure of the identities and histories of clerical sexual abusers to the public. The Diocese of San Bernardino was named in multiple lawsuits for having employed sexually abusive priests.

This report contains the names of clergy associated with the Diocese of San Bernardino, including those of whom were assigned within or working in the Diocese of San Diego within the geographical boundaries now encompassed by the Diocese of San Bernardino, who have been accused of sexual misconduct. While lawsuits were filed involving many of these alleged perpetrators, the vast majority of the claims against these individuals have been settled or have not been fully evaluated in a civil or criminal court. Accordingly, the allegations should be considered just allegations and should not be considered proved or substantiated in a court of law. All individuals should be considered innocent until proven guilty. In some situations, the statute of limitations has expired preventing the cases from being heard in a court of law.

It is believed that the Diocese of San Bernardino does not make available to the public the full history, knowledge and context of the sexually abusive clerics within the Diocese. This report is an attempt to compile information already available to the public from various public sources including the public media, bishopaccountability.org, the Diocese's public statements, and other sources that have attempted to chronicle this information for public use. This report is intended to raise awareness about the important issue of clerical sexual abuse, provide the public with vital information including assignment histories, and provide awareness to survivors. Assignment histories are approximations and were compiled from the Official Catholic Directory, bishopaccountability.org, statements attributed to Church officials, Church records, and media reports.

Supporting California Abuse Survivors for Decades

Jeff Anderson & Associates pioneered the use of civil litigation to seek justice for survivors of childhood sexual abuse. Through its work, Jeff Anderson & Associates seek to bring hope, healing, accountability and justice to survivors of child sexual abuse. The attorneys have advocated for survivor rights in California for years and represented hundreds of survivors when the California State Legislature opened and extended a retroactive window for sexual abuse survivors to file claims. In addition to seeking legal accountability, they have supported survivors of abuse by bringing public awareness to the cause. Jeff Anderson & Associates use legal theories, including public nuisance, to help prevent child sexual abuse and bring awareness to clerical sexual abuse across the country.

ATTORNEY JEFF ANDERSON

Jeff Anderson first sued enablers of clerical sexual abuse in California as early as 1993 for abuse perpetrated by a Catholic priest associated with the Diocese of San Bernardino, Diocese of San Diego and Servite Order. Since then, his firm and the attorneys who work with him, have been associated with more cases involving sexually abusive clerics than any other law firm in the country. For decades, the attorneys have sued nearly every Catholic diocese and archdiocese in California; the Lutheran Church; the Boy Scouts of America; American Youth Soccer Organization; multiple private schools; and numerous other individuals and institutions in California.

ATTORNEY MIKE FINNEGAN

Mike Finnegan has worked for over a decade with thousands of courageous survivors of childhood sexual abuse. In addition to an attorney of record in multiple federal lawsuits against the Vatican, Mike has sued numerous dioceses and religious institutions in California. Mike played an integral role in helping survivors in California and resolving hundreds of cases under the 2003 window legislation. Hailing from Minnesota, Mike played a pivotal role in forcing the Catholic bishops in Minnesota to release over 200 names of priest perpetrators to the public and thousands of pages of documents demonstrating the cover-up by top officials.

ATTORNEY MIKE RECK

Mike Reck's practice is the representation of survivors against the powerful institutions that covered up the sexual abuse of children. Mike is a California native whose career against institutional abuse has included lawsuits against multiple dioceses and religious orders in California and throughout the country. Mike has been a courtroom figure with trial experience for nearly two decades. Recently, Mike fought for accountability on behalf of survivors in the Archdiocese of Los Angeles; several dioceses in New York, including the Diocese of Buffalo and the Archdiocese of New York; the Archdiocese of Philadelphia and numerous other religious institutions and Catholic dioceses in the states of Hawaii, Connecticut, New York, Oregon, California, Pennsylvania, and Delaware.

Jeff Anderson & Associates

In most cases, childhood sexual abuse goes unreported or victims/survivors break their silence many years after the abuse occurs. While there are many legal barriers to prosecuting those responsible for the abuse, our firm has worked to overcome these barriers for more than 30 years. As pioneers of child protection through civil litigation, we are aggressively committed to this cause and capable of handling the most complex legal issues in courts across the United States.

We are smart, tough and relentless, but the virtue that ultimately sets us apart is our compassion. We are people who feel deeply and work tirelessly in response to an unjust world. We have a reputation for being the best at what we do and that begins and ends with our ability to support, protect and guide survivors along their journey toward justice and healing. As sexual abuse lawyers, we have represented thousands of survivors of child sexual abuse against individual offenders and the institutions that harbor these offenders. We are engaged with a national network of attorneys who share our mission, and when we take a case, we exhaust every imaginable resource in order to serve our clients' needs.

Abuse in the Diocese of San Bernardino

This report is intended to be a chronology and analysis of the sexual abuse of children within the Diocese of San Bernardino including a discussion of how the highest Church officials enabled the abusers and covered up crimes of sexual misconduct and abuse.

The data reveals the horrifying scale of priests sexually assaulting minors from early history when the Diocese of San Bernardino was included within the Diocese of San Diego to the present day. The data collected suggests the patterns and practices of Church officials, including the orchestrating of an institutional cover-up of an enormous magnitude. Perhaps most shocking among the discoveries is that some perpetrators were intentionally transferred and retained in trusted positions with direct access to children even when they were known to be abusers. Modern means of analysis and availability of data through the Internet and social media is exposing perpetrators who operated in this Diocese, but until full transparency and accountability exist, children remain in grave danger.

Historically, the Diocese of San Bernardino, like many other dioceses and archdioceses, knew priests were perpetrators that posed a significant danger to children. The sexual abuse of children has long been a crime in California. However, Church officials chose and continue to keep these crimes hidden, allowing its priests continued and unfettered access to children. During the 1980s and 1990s, occasional bits of information about clerical abuse would surface, but the Church's strict policy of secrecy kept most of the information and full extent of the problem hidden from the public. This has continued despite mandated reporting laws.

The civil window in 2003 subjected the Diocese of San Bernardino to additional scrutiny that it had never previously faced. This window was one short year. During this time survivors brought claims against the Diocese for abuse by clerics and lay employees of the Diocese. For the first time, a significant number of survivors became plaintiffs in civil lawsuits and their attorneys were able to pry open secret Church records using subpoenas and court orders.

History of the Diocese of San Bernardino

The Diocese of San Bernardino comprises San Bernardino and Riverside Counties. Historically included in the Diocese of San Diego, the Diocese of San Bernardino was established as an independent diocese by the Holy See in 1978. On this date, all priests living in the boundaries of San Bernardino County were officially made priests of the new diocese. Since that time, the Diocese of San Bernardino has only been governed by two bishops.

San Bernardino Functioned as a Dumping Ground for Problem Priests

The Diocese of San Bernardino has and continues to suffer from a shortage of diocesan priests. In order to staff its churches, schools, and other facilities, the Diocese depends on an influx of priests from religious orders and other dioceses. According to the Official Catholic Directory, in 2018 over 75% of the priests assigned in the Diocese of San Bernardino were not diocesan priests. The majority of the priests were members of religious orders (Jesuits, Franciscans, etc.) and extern priests from other dioceses.

This created a dangerous dynamic that allowed the Diocese to function as a dumping ground. Even before the Diocese of San Bernardino separated from the Diocese of San Diego, the Bishop complained of this problem, particularly in the Banning and Beaumont communities. In 1950, the Bishop wrote to a Church official in Rome and complained that the Franciscan Fathers “used this Diocese as a dumping ground for their moral, mental and physical problems.” He demanded the withdrawal of “one misfit after another.”¹

A Facility for Housing and Treating Sexually Abusive Priests was Created in The Diocese of San Bernardino

Vatican officials authorized a religious order of priests known as the Servants of the Paraclete to operate treatment centers for sexually abusive priests throughout the world. One such facility was located in Cherry Valley within the Diocese of San Bernardino. Church documents refer to this facility as a halfway house for priests requiring aftercare and ongoing spiritual, psychotherapeutic and pastoral supervision. This facility was staffed by the Servants of the Paraclete under the authority of Bishop Phillip Francis Straling.

The full extent of how many predatory priests were housed at this facility and exposed to the communities within the Diocese of San Bernardino is known only to Church officials.

Church Experts in Sexually Abusive Priests were Given High Positions in the Diocese of San Bernardino

The worldwide leader of the Servants of the Paraclete is Father David T. Fitzgerald, s.P. His position is referred to as the Servant General and he governs all priests of the organization. He began his career in the Diocese of Brooklyn, New York and subsequently transferred to the Servants where he was assigned to work in San Bernardino and served as a high ranking Diocesan official in the Diocese of San Bernardino as the Vicar for Priests.

The Reverend James T. Booth

Via dell'Umiltà 30

Dear Father Booth:

We will indeed be grateful to have the benefit of your priestly ministrations for what looks like a possible three months. Before coming to a final decision, however, will you kindly check the possible cost of a trip by boat or plane to the United States and from New York to San Diego? You understand, of course, that with our limited resources we must watch the overhead.

Please read over the inclosed petition and note the difficulties that confront us in regard to the tenure of the Franciscan Fathers in Banning and Beaumont. The fact is that the majority of Franciscan priests are not trained for parish work. Last summer a committee of some fourteen parishioners, representing the rank and file of the Precious Blood Parish in Banning, made a trip to San Diego to petition that a diocesan priest replace the Franciscan Father who, although a good priest, "was too old to do anything". This group pointed out that the diocesan priests had built churches and schools all around them but their parish had made no progress within the last fifty years — all of which is only too true.

Another angle that is of importance. The late Archbishop Cantwell obtained a Bonaplacitum for the Franciscan Fathers to enjoy at Banning, Beaumont and other parishes because of their willingness at that time to accept the Indian Missions in this Diocese. Over a year ago, the Franciscan Fathers gave up the Indian Missions on the plea that their Fathers were needed in China.

During the thirteen years since this Diocese was erected, to my own personal knowledge, the Santa Barbara Province of the Franciscan Fathers has used this Diocese as a dumping ground for their moral, mental and physical problems. It became necessary for me some time ago to demand the withdrawal of one misfit after another. To be specific, in a more recent case, they sent a man whose health had broken in China — Father Emmanuel — and who had never had a parish in the United States before to take charge of the Precious Blood Parish in Banning. He has not only failed but he has caused a decided rift in the parish there as the people are all on edge through lack of experience, imprudence and sudden change of judgement regarding the purchase of property for the proposed school. The fact is that the parish has to be directed from this Chancery because the incumbent there is incompetent. Several weeks ago we requested the Provincial to remove him and to replace him with an experienced, competent pastor. The Very Reverend Provincial Augustine Hobrecht called here yesterday and requested more time because he had no priest available to send to Banning. In the meantime, religion suffers. Note copies of inclosed letters from two Franciscans who had parishes in this Diocese.

The Reverend James T. Booth
April 26, 1950 -- #2

After studying the matter, will you kindly advise me regarding a Canonist in Rome who through experience and other qualities would be the best to represent me in petitioning the Congregation to set aside the Beneplacitum and restore the two parishes of Banning and Beaumont to the Diocese for the good of religion.

About two years ago the mission across the tracks for Mexicans in Beaumont was wrecked by an earthquake. Since that time we have been begging and pleading with the pastor in charge to assemble somekind of an outline for the rebuilding of the Mexican Mission; but we can't even get a response to our letters. I asked for the removal of the sick priest the Franciscans had sent to Beaumont and now it becomes necessary to request the removal of his successor. It is the same old story. The Franciscans simply do not have men trained for this work.

My first thought was if these matters could be presented to the present Franciscan General he might consider giving up the two parishes of Beaumont and Banning. They still have two other parishes -- one in San Diego and one in Fort Yuma. Both have been poorly staffed and have been spiritually dead for the past thirteen years to my personal knowledge. In Old Town, San Diego, we have tried to get the Franciscan Fathers to build a parochial school. During World War II they purchased a vast amount of land adjoining their property but got it tied up by lease for government property. If they had built a school when requested, it would have been paid for now. If you think it wise to request the San Diego parish, that could be included in our petition. It is indeed most regrettable that these parishes were given to the Franciscans because they are absolutely needed for our own Diocesan priests in view of the fact that the intense heat of Imperial Valley and the Coachella Valley requires a change after two or three years for the priests who serve in these difficult climes.

You surely get the picture and you can be a great help to us in collaborating with one of the leading Canonists in Rome to adjust this difficulty. If, after due consideration, the Very Reverend General declines to release the parishes under consideration, then you and the Canonist retained could complete a petition to the Congregation that handles these matters. It is possible that you will require more details before whipping the case into final shape for presentation.

With kindest regards and renewed appreciation,

Devotedly your servant in Christ,

Bishop of San Diego.

Fr. David T. Fitzgerald 1

Dear Priestly People,

One of the greatest joys in my life is serving the people of God as a Catholic priest.

I was ordained as a diocesan priest over 33 years ago at St. Teresa of Avila church on Sterling Place and Classon Ave. in Crown Heights, Brooklyn, NY. Less than 3 years later I entered St. Michael's Center in St. Louis, MO where I was sent for treatment of alcoholism and chemical dependency. There I met the servants of the Paraclete for the first time. I was so impressed by the servants I met there, (Fr. Jim Sampson, s.P. and Fr. Liam Hoare, s.P.) that upon successful completion of my treatment program I inquired about joining the community. My hopes, however, were dashed when I was told that it might be better to wait "a while." When I asked how long "a while" was I was told to come back when I grew up! Then they said it would take a minimum of five years for that to happen! Although I went away sad like the rich young man in the gospel who was told to sell what he had, give the money to the poor and then return to follow Jesus, I did manage to persevere in my discernment process. Those five years passed quickly and after two additional years (so I could mature a bit more) I began my formation as a religious at Lourdes novitiate in Jemez Springs, NM in 1987.

I have been blessed to serve as a servant of the Paraclete in New Mexico, Missouri, England and California. Two years ago I visited the community in the Philippines and Viet Nam where I met young men with deep faith, prophetic vision and a zest for life! Throughout the course of my ministry I have come to know and love so many wonderful people, people like you and the people we serve and with whom we minister. There are so many who are wounded and hurting, so many who are in need of healing and forgiveness, so many who are seeking refuge from despair and the freedom only God can give. And happily there are many more that are ready to walk with others like Jesus did on the road to Emmaus. Like our Lord himself, and the Eucharistic bread He feeds us, we have been blessed, broken and given to others that they might find hope.

I know personally what it is like to be a priest who has struggled with failure, brokenness and despair. I know the

intensity of the pain and the depth of the shame that so often binds us. But I also know the wonder of God's redemptive grace and the gift that recovery is. During my now 30+ years of sobriety I have studied hard and learned much. My best teachers have been those, who, like me, have found healing from their own addictions. So

that I might better serve others I became an internationally certified addictions counselor and certified clinical supervisor. Most of all I remain committed to personal growth by incorporating the spirituality of the 12 Steps used by so many people whose lives have been impacted by all kinds of addictions and related issues.

When I was ordained I thought my life would be spent entirely within the diocese of Brooklyn serving in what was then called "the inner city." Little did I know what surprises God had in store for me? After working 10 years in Brooklyn and Queens, NY and then ministering for some years in programs sponsored by the servants, I went to Indio, California where I served as chaplain in a homeless shelter for men, women and children. . Soon I was invited to serve as a parochial vicar, and eventually as a pastor and Vicar for Priests in the Diocese of San Bernardino. There I met many wonderful priests from a wide variety of countries, including the Philippines, Viet Nam, Ghana, Nigeria, Mexico and elsewhere. These are the very same parts of the world where the servants are being blessed with vocations. Then I ask

Fr. David T. Fitzgerald 1 *continued*

myself if this is just a coincidence and as I reflect, I smile as I remember that "Coincidence is just God's way of remaining anonymous."

Looking back on my life I can often see what eluded me when I looked forward in times past. I can trace the loving hand of God's mercy at work in my life. God's plan for me far exceeded my wildest dreams. Nothing I ever hoped for was better than the blessings that flowed from the heart of God. Consequently, any fear or anxiety about what my tenure as Servant General might bring is quelled by the knowledge that with God all things are possible.

There is an old saying that states that "Nothing is constant except change." For me that is so true. Now more change has come into my life, change which I never hoped for but which I readily embrace. After seven years of blessing as pastor of Our Lady of the Assumption in San Bernardino, CA, on April 12th I was elected the sixth Servant General of the Servants of the Paraclete. On June 30th I will complete my service in the diocese and move to our motherhouse in Jemez Springs, NM. Our generalate will remain in St. Louis, MO and from there "Priestly People" will continue to be published.

I look forward with joyful expectation to whatever the Lord might ask of me and all the servants of the Paraclete. Although some of us have moved beyond our "middle-aged years" we have not lost enthusiasm for our ministry to priests and Brothers in need. We are heartened by the spirit that is evident in our younger members in formation and final vows

and we look forward to continued growth in Asia, Africa, and India and wherever God raises up new vocations for our congregation. And we are grateful for friends like you who support and encourage us by your prayers and generosity.

As I begin my term as Servant General I would be remiss if I did not acknowledge my gratitude to all of my predecessors. Fr. Gerald Fitzgerald gave us a vision and shaped our charism; Fr. Joe McNamara instilled hope and perseverance; Fr. Mike Foley shared his giftedness and creativity in professionalizing our ministry; Fr. Liam Hoare gracefully showed us how to weather even the toughest storms and Fr. Peter Lechner helped to root us in new countries thus creating renewed enthusiasm for our mission. I am extremely grateful to each of them and I pray for the grace to serve as they have served, with selfless dedication and love for God, the church and as our motto says, "Pro Christo Sacerdote," for Christ in his Priests!

I look forward to hearing from all of you, priestly people of God. Please pray with and for me and all the servants of the Paraclete. Kindly share our newsletter with friends and family and pray that the Holy Spirit will bless us with a bounty of gifts as we celebrate Pentecost.

Sincerely in the Paraclete,

Very Rev. David T. Fitzgerald, s.p.

SERVANTS OF THE PARACLETE PROGRAMS FOR PRIESTS AND RELIGIOUS

The Servants of the Paraclete is a Religious Congregation of men who are dedicated life in a common family and ministry to priests and brothers in the Catholic Church.

This Congregation was founded by Rev. Gerald M.C. Fitzgerald in Jemez Springs, New Mexico in 1947. He was a man of vision and enthusiasm who began his ministry as a priest in the Archdiocese of Boston and later became a member of the Congregation of the Holy Cross. While working as a Holy Cross priest, Father Gerald received a call from God to minister to priests and brothers who were experiencing difficulties in their lives and ministry. His vision led him to the mountains of New Mexico where he founded the Congregation of the Servants of the Paraclete in Jemez Springs. He called the foundation Via Coeli ("Way to Heaven").

Soon others responded to this call and joined him in this family life and apostolate. In the next 20 years, houses were established in other parts of the United States and Europe, with the same purpose, to serve the needs of priests and brothers. Today the Servants of the Paraclete have houses in Jemez Springs and Albuquerque, New Mexico; Cherry Valley, California; St. Louis and Dittmer, Missouri; Stroud, England and Rome, Italy.

In the past 10 years, the Servants of the Paraclete have labored to establish sound holistic and therapeutic programs of renewal and treatment in their houses. In doing so, they have invited many people from various helping professions to join with them in their ministry. Today each program offered by the Servants of the Paraclete attempts to combine the best in spirituality, psychology, theology, medicine, sexuality, social awareness and physiology.

PHILOSOPHY OF MINISTRY

Our philosophy of ministry can best be described by quoting several statements from documents that have been published by the United States Catholic Conference and the National Conference of Catholic Bishops. In the document *As One Who Serves*, we read: "The person who is a servant leader is expected to be a healthy maturing person. It is important to consider and reflect upon the functions of the priest, but the primary definition or understanding of ministry must be seen in terms of the person. The effectiveness of the priest's ministry is integrally related to his personal growth. In reality, the dimensions or responsibilities of priest as servant leader are realizable only in the context of development of the priest as a person. Such development includes the emotional, intellectual and spiritual dimensions of growth.

"The social sciences have offered insights and analyses concerning behavioral dimensions which have come to be realized as common to all. As a human person, the priest desires to live forever. He needs to be recognized, and appreciates the warmth of being loved. Like any other human being, the priest wants to be accepted. He wants to belong, to be and feel needed. He, like other people, passes through various discernible stages in life growth. He has the need for some recognition of his efforts and respect for his person. Like others he searches for intimacy with his God, and struggles to integrate his life in the presence of the Lord.

"It is important to recognize these ordinary needs. They help in understanding much of the frustration, tension and conflict experienced by priests. If the priest does not understand that they are calling for fulfillment within him, his attitudes will be troubled.

Servants of the Paraclete 1 *continued*

and poorly developed. He will experience anxieties which he does not comprehend. He may well confuse some of his natural yearnings with moral shortcomings." (As One Who Serves, Chapter IV, pp. 55-56, USCC Publications, 1977.)

The ministry of the Servants of the Paraclete attempts to help priests and brothers who are experiencing difficulties and working through specific developmental phases of life. It is our philosophy that a program for priests and brothers should address itself to the physical, spiritual, psychological, intellectual, sexual, social and creative needs of those who come to us.

The document of the Committee of the Catholic Bishops on the Spiritual Renewal of the American Priesthood concludes: "We propose that the spiritual renewal of the American priesthood base itself on the principles of interaction" (1973, p. 64). Our philosophy is centered around the Eucharist. We strive to instill within our residents a family atmosphere of interpersonal communication. The residents are encouraged and helped to see the group as their family, and they are supported by one another and challenge each other to further growth in the Spirit. Our spirituality is a Eucharistic one in which all of life centers and flows in and out of Jesus present in the Sacrament. The Eucharist calls us to relationships of love. Note the following quote from the NCCB Study On Priestly Life and Ministry in which 66% of the priests were classified as underdeveloped: "The chief area in which the underdeveloped priests manifest their incomplete psychological growth is in their relationships with other persons.

"These relationships are ordinarily distant, highly stylized, and frequently unrewarding for the priest and for the other person. Underdeveloped priests report their interpersonal relationships are difficult, even though they like people and, at a deep level of their personality, would like to be closer to them. There is a certain pain involved for them in this conflict between wanting a psychological experience of being closer to people and yet finding it awkward and difficult to get themselves into close relationships with others We speak here of that segment of underdeveloped priests who reveal, in depth interviews, that they have few close friends. Underdeveloped priests are genuinely uneasy about intimacy ... (which) refers to responsible life" (NCCB Study On Priestly Life And Ministry, pp. 88-89). Most priests and brothers who have come to us over the years report very similar experiences.

The ministry of the Servants of the Paraclete is centered on interaction as an extension of the Eucharist. It is the policy of the Servants of the Paraclete never to refuse care to any priest or brother of good will who shows motivation.

In all of our houses, the Eucharist is the center of life. Each house has a time for quiet prayer before the Blessed Sacrament each day, Morning and Evening Prayer in common and Concelebration of the Eucharistic Liturgy.

HOLISTIC EVALUATION SERVICES

The Servants of the Paraclete recognize the uniqueness of the vocation to the priest and the Religious Life. However, those who answer the call to follow Christ in this life are human beings. As such they can and do develop normal human problems and difficulties.

The holistic evaluation developed by the Servants of the Paraclete, in conjunction with their staff psychologists, psychiatrists and therapists, is based upon their many years of ministry to priests and religious in difficulty. This evaluation process exists to assist an individual and his Superior in determining the nature of any existing psychological, emotional or medical problem. If any such difficulties are encountered, the evaluation team will then make specific recommendations to the evaluatee and his Superior.

This evaluation process will not only point out the areas of concern but it will also point out certain areas which might be a cause for concern. It can help in making decisions regarding ministry, placement, etc.

This evaluation process requires a Monday-thru-Friday stay. Longer evaluation periods may be necessary and can be arranged with the Director.

This evaluation allows our Professional Staff to help the individual determine what he has and what direction of growth might be best for him. Also, this visit allows the person to see the current program in motion, to meet with the men who are currently running the program and to ask any questions about the programs of the Servants of the Paraclete.

This evaluation includes the following:

- 1) Psychiatric Interview
- 2) Psychological Interview
- 3) Interview with a Spiritual Director
- 4) Interview with the Program Director
- 5) Life History Survey

9

Servants of the Paraclete 1 *continued*

- 1) When a resident completes a program, a member of the professional staff will return to his place of assignment to conduct a re-entry workshop. It is important that the significant people in his life be present for this meeting.
- 2) Telephone follow-ups will be made during the first five months after completion of the program.
- 3) Each resident must return to Jemez Springs six months after completing the program for a week-long aftercare workshop.
- 4) Within eighteen months after completion of the program another workshop can be conducted in the resident's place of living if requested.
- 5) If an individual needs further residential care after completing the program he can live in an aftercare or halfway house under the auspices of the Servants of the Paraclete.

COST:

The cost of the program is approximately \$95.00 a day. Our policy is to offer the best possible care at the lowest possible cost. The Diocese or Religious Congregation handles all insurance claims for the resident. We provide itemized statements necessary for these claims. Normally, insurance policies will cover medical, psychiatric and psychological services. However, in some cases certain insurance companies have covered the cost of the entire program less the deductible. By maintaining our non-medical status, we are able to keep the cost of the program lower.

ENTRANCE REQUIREMENTS:

Before being accepted into these programs, a person must undergo a **HOLISTIC EVALUATION**.

THE SERVANTS OF THE PARACLETE ST. MICHAEL'S CENTER FOR THE HOLISTIC TREATMENT OF CHEMICAL DEPENDENCY

Rev. Richard Brown, S.P. - Father Servant
Paul Midden, Ph. D. - Director
13270 Maple Drive
St. Louis, Missouri 63127
(314) 965-0860

Alcoholism ranks third as the most serious health problem after heart disease and cancer, but, from the viewpoint of overall morbidity, it can be considered our number one health problem.

Alcoholism is a chronic, progressive and fatal disease. If left untreated most alcoholic die from the disease, but most who receive treatment recover. The incidence of recovery from alcoholism with treatment is greater than for any other chronic disorder.

Warm support, honest challenge, objective crisis intervention, faith in God and individual educational therapy can release healing forces within the afflicted individual. Chemically dependent persons form a treatment-resident group; all possible resources are used to assist them in cooperating in their life-giving treatment. Alcoholism is a complicated disease that recovery must include a broad range of approaches.

Bill Wilson, the co-founder of Alcoholics Anonymous, had a horror of thinking in absolute terms. To him, categorical thinking was a narrow, rigid and improper approach characteristic of alcoholic thinking. With this in mind, St. Michael's offers an eclectic, pragmatic and interdisciplinary approach to the treatment of chemical dependency. The three phases of holistic treatment are based on the following understandings:

- 1) Alcoholism is a highly complicated disease; its major components contain chemical, physical, mental, spiritual and cultural forces.
- 2) Alcoholism is a treatable disease; effective treatment releases internal motivating forces.
- 3) A spiritual experience is necessary for total recovery.
- 4) Once a person is no longer taking the alcohol or drugs, effective therapeutic intervention is necessary for the attainment of serenity.

PHASE ONE: Primary Treatment (30 days)

A person referred to St. Michael's begins his treatment for chemical dependency at the Hyland Center, an 80-bed acute care center for the treatment of alcoholism and other chemical dependencies. Located fifteen minutes from St. Michael's, Hyland Center is a division of St. Anthony's Medical Center.

The Director of Admissions and Pastoral Care at St. Michael's admits the patient to the Hyland Center. He directs the Pastoral Care for all the priests and brothers admitted under the reference of St. Michael's Center. This contact insures association with St. Michael's Center where the patient will go after primary treatment. The patient at the Hyland Center receives periodic weekend passes so that they can visit St. Michael's, become familiar with the setting and the program. Priests and brothers who have been

11

Servants of the Paraclete 1 *continued*

through other primary treatment center. This is essential as St. Michael's prior to admission to the holistic program.

PHASE TWO: (Five months)

Intensive education into the program of Alcoholics Anonymous, Holistic Renewal and Personality Development.

Evading can often occur after the chemically dependent person completes a 30-day inpatient treatment. There is often a "pink-cloud" euphoria induced by abstinence and the beginning of self-discovery, and the chemically dependent person might feel confident that he can maintain a comfortable sobriety on his own. He can be locked into an evading stage and denial can be at a peak. At this point, assertive and supportive healing is imperative. Phase Two confronts this illusion of self-sufficiency through a holistic development program.

After primary treatment, priests and brothers suffering from chemical dependency have a need to intensify their sobriety and need care for relational, social, spiritual and ministerial difficulties. Because of the debilitating effects of chemical dependency and because there may also be related emotional difficulties they will begin the holistic development program at St. Michael's immediately following primary treatment. Besides needing to improve relational and social skills, the chemically dependent person needs help in deepening a relationship with God; improvement in emotional and psychological health; education in chemical dependency, sexuality and in religious and ministerial life. The GOAL for each resident is healthy sobriety and peaceful serenity.

There is no cure for alcoholism. A chemically dependent person will be "recovering" for life. Certain personality features can be troublesome for all people. When combined with chemical dependency, these traits can take on added significance and may include:

- High anxiety level
- Emotional immaturity and moodiness
- Ambivalent feelings and hostility
- Low frustration tolerance
- Low self-esteem
- Isolation
- Perfectionism
- Compulsiveness
- Possible psychosexual confusion
- Inability to express feelings appropriately
- Anger over dependence
- Denial
- Depression
- Feelings of inferiority

Phase Two of this program explores these areas and helps the chemically dependent person cope with these difficulties so that he can meet his needs and develop serenity as a way of life.

Phase Two of St. Michael's Center, which stresses the Twelve Steps of Alcoholics Anonymous, includes these elements:

- 1) Bi-weekly meetings with a Chemical Dependency Counselor
- 2) Three to four AA Meetings per week
- 3) AA Education Program

12

- 4) AA Step 1 group
- 5) Regular meetings with a Spiritual Director
- 6) Fifth Step work
- 7) Regular meetings with the Psychologist
- 8) Group Therapy
- 9) Art Therapy Group
- 10) Psychodrama Group
- 11) Cardiovascular Maintenance Program
- 12) LIFO Workshop
- 13) Depth Psychology Seminar
- 14) Meetings with a Psychiatrist or Physician as needed
- 15) Sexuality Seminar
- 16) Stress Management Workshop
- 17) Workshop in the Spiritual & Psychological Dynamics of Life and Min
- 18) Process Journal Seminar.

The later stages of recovery require a different therapeutic action. To maintain a sobriety a person must eventually modify his preferred defense system. Here, need to counteract the limitations of a simplistic approach to something as complex as the alcoholics' preferred defense structure and the recovery process.

A recovering chemically dependent person can deal with issues of self-therapeutic intervention helps each resident develop an integrated, holistic approach to life and ministry.

The central spiritual theme of A.A. is humility, implicitly contained in the statement "First of all we had to quit playing God."

PHASE THREE: Follow-up:

Recovering chemically dependent people need at least two years maintenance of sobriety before total commitment and responsibility are present. St. Michael's Center offers a Two-year Follow-up Program. The resident coordinates and establishes process with the Director of Aftercare who consults with the staff on the particular details of continued recovery.

This Follow-up Program includes the following:

- 1) Ministerial assignments in the area close to St. Michael's Center when indicated needed.
- 2) Formulation of a Two-year Follow-up Contract.
- 3) Meetings with significant others prior to leaving St. Michael's Center. The Director of Aftercare and the Focal Counselor conduct this meeting.
- 4) At least three A.A. meetings per week upon return to the new assignment.
- 5) A Reentry workshop conducted by the Director of Aftercare in the person's place of assignment with his community, Diocese, significant people, or all.
- 6) Monthly follow-up by telephone for two years.
- 7) An Aftercare Workshop at St. Michael's Center six months after completing program.
- 8) An Aftercare Workshop at St. Michael's Center one year after completing program, 1½ years after completing the program, and 2 years after completing program.

If a person needs further residential care after the Program, he can live in an after

13

Servants of the Paraclete 1 *continued*

house or halfway house under the auspices of the Servants of the Paraclete.

Our Founder, Father Gerald Fitzgerald, S.P., insisted that the Servants of the Paraclete live as a family. We believe that this familial lifestyle is an essential component in bringing care and healing to our brothers. As a family, we strive to build a healthy home environment for the residents. Alcoholism develops slowly and recovery is not quick. We try to let the residents know that they are loved, cared for and respected as human beings.

Alcoholism is a family disease. We, the Paracletes, believe that we must be in touch with our own feelings and emotions if we are going to minister to and live with these men. Depression, anger and self-pity are common reactions among families of chemically dependent people. These can slow recovery. Therefore, the entire staff of St. Michael's Center meets every other week for a staff group. While these priests and brothers are at St. Michael's Center, the entire "family" needs help and support.

COST: The cost of the Program at St. Michael's Center is approximately \$95.00 per day. Phase One of treatment at Hyland Center is usually covered totally by insurance. Most insurance claims will cover the psychologist and psychiatrist fees for Phase Two. Please contact the Administrator of St. Michael's Center for further details.

THE SERVANTS OF THE PARACLETE ST. MICHAEL'S INSTITUTE A PROGRAM FOR STRESS RELATED DIFFICULTIES

Paul Midden, Ph.D. - Director
13270 Maple Drive
St. Louis, Missouri 63127
(314) 965-0860

St. Michael's Institute is a three month residential program designed to assist priests and brothers in dealing with problems of anxiety, burn-out and stress related disorders. The grounds are located in suburban St. Louis where St. Michael's Institute provides a relaxed setting where residents are offered a variety of programming to meet individual needs.

It is our experience that priests and brothers, ministering in the Church, often have unmet basic human needs. In the spirit of *Lumen Gentium*, we believe that the effectiveness of the priest's ministry is integrally related to his personal growth; such development (of the priest as person) includes the emotional, intellectual and spiritual dimensions of growth." (Documents of Vatican II, Austin P. Flanner, William B. Eerdmans Publishing Co., Michigan, 1975 pp. 350-440.)

It is our concern for the priest or brother as a person to which St. Michael's Institute is devoted.

The overall GOAL of the Institute is to help priests and brothers live comfortably and effectively in their ministerial setting. We believe that this is accomplished by:

- 1) Explore and resolve personal conflicts impeding their developmental progress
- 2) Acquire the emotional, cognitive and behavioral skills necessary to provide for their own growth in these areas;
- 3) Acknowledge and accept responsibility for their religious commitments.

We believe that this is most effectively accomplished in an intensive, residential setting where fulltime attention can be accorded to the resident's mental, physical and spiritual needs.

In an environment structured around familial community and Sacramental activities, the following areas are addressed:

1) PHYSICAL:

Each resident receives a thorough medical evaluation, followed by supervised participation in a cardiovascular maintenance program.

2) SPIRITUAL:

Weekly seminars are held along with ongoing consultation with a Spiritual Director.

3) PSYCHOLOGICAL:

Each resident is thoroughly evaluated psychologically and participates in individual and group psychotherapy.

15

Servants of the Paraclete 1 *continued*

4) **SEXUAL:**

Each resident attends weekly seminars aimed at dealing honestly with sexuality issues.

5) **COMMUNICATION AND LEADERSHIP:**

Semi-weekly training sessions are aimed at building specific problem-solving skills.

6) **CREATIVE/EXPRESSIVE:**

Each resident participates in activities designed to foster his ability to express himself in a medium of his choice.

7) **STRESS MANAGEMENT SEMINAR:**

Each resident participates in seminars aimed at teaching him how to cope with stress and deal with stressful situations in life and ministry.

Finally, it is our belief that professionals working in tandem with Religious Superiors and concerned others is essential to successful treatment. To this end, participation and communication with home communities is encouraged and actively solicited.

ENTRANCE REQUIREMENTS: Before entering this program a person must undergo a **HOLISTIC EVALUATION**.

COST: The cost of St. Michael's Institute Stress Program is approximately \$95.00 per day.

SCOPE AND PURPOSE:

This program is described as an Aftercare Program. This means that people who co this house are selected on the basis of having had some previous therapy or who ongoing assistance. In most cases, this will have taken place in one of the prog offered by the Servants of the Paraclete. Nonetheless, we do not exclude those who been referred by other competent agencies. The basic concern is that prospe residents manifest progress in their acceptance and understanding of their va difficulties and that personal and realistic change in their lives can be discernabl

The Exodus is an event of Salvation History that must be continued and realized in the life of each Christian person. Our God is a God of freedom. Through Jesus Christ, God has called us to live in the fullness of life: freedom and the fullness of life realized in full human maturity.

The Servants of the Paraclete present the Exodus Program as a means of addressing the needs of priests, sisters and brothers who desire greater Life. The program is a means of growth towards personal integration and freedom, a time to awaken unrealized areas of creativity and an opportunity to deepen an inner awareness of what it means to be "another Christ" in today's world. In this sense, the Exodus Program is:

PREVENTATIVE CARE.

The Exodus Program is Holistic in the sense that it has as its aim the discovery of how to harmonize human spiritual development with the demands of psychological, emotional, and physical health. It seeks to promote the integration of social and cultural realities such as work/leisure and community/solitude within the context of priestly and religious life-style and ministry.

The Exodus Program promotes the following beliefs:

- That holiness is wholeness. God is glorified when we are fully integrated and alive.
- That spirituality is not something which is added to our lives; it is our Life!
- That prayer is an expanding of the awareness of the glory of God within us.
- That religion is not finding the way to escape from life's reality but, rather, the trust to enter into and embrace life, all of it!
- That ministry is, first of all, being and then enabling others to be all that they are.

THE EXODUS PROGRAM IS:

1) **HOLISTIC.** Life is open on all levels: the body, the emotions, fantasies and images, creativity and vision, mind and spirit. It includes making choices, taking responsibility and communicating.

2) **SMALL.** By design, the program is limited to 8-10 priests, sisters and brothers at any one time. It is a very personal experience and a close community encounter.

3) **A LIFE-LABORATORY.** When we come again to know who we are, the Exodus Program provides the space, time and permission to practice living that out. The program provides a real and authentic environment.

THE EXODUS PROGRAM IS FOR:

- Priests, sisters and brothers. The mixed community is a discovery of how we can learn to enrich one another.

- All those who would like to realize more clarity, energy and peace in
- All those in any kind of life-style, ministerial or personal transition.
- Those on Sabbatical. The program can be a core around which to build sabbatical experience.

WHERE: The Exodus Program is located in the country, just off Highway 1, three miles west of St. Louis, Missouri. The accommodations include a twelve house, chapel, a kitchen, dining room - living room area, a T.V. room and a large purpose room for seminars and activities. There is spacious property, a large area and swimming pool.

Ordinarily, two evenings a week are free and there are no scheduled weekends.

Each member of the community is given the opportunity every week for **COUNSELING AND SPIRITUAL DIRECTION.**

Each week there are two sessions of **COMMUNITY SHARING.** These are no sessions. Often enough, however, they can be healing and certainly helpful in that members learn to trust, receive feedback and reflect on better ways of community making choices and taking responsibility.

TIMES: The Exodus Program is offered **THREE TIMES A YEAR**, begins second Monday in January, the second Monday in May and the second Monday in September. The program lasts for 15 weeks.

COST: The cost of the Exodus Program is \$50.00 per day.

SERVANTS OF THE PARACLETE LOURDES FORMATION HOUSE

Rev. Salvatore Busca, S.P.
Director of Associates and Novice Director
Jemez Springs, New Mexico 87025
(505) 829-3720

One of the most important aspects in becoming a Servant of the Paraclete is the **Formation**. It is in these early years that a man learns about the Congregation. The Congregation learns about the man: a mutual learning experience. After application and acceptance, the Candidate will begin the first phase of Formation.

PHASE ONE: ASSOCIATE PROGRAM

Initially, the man spends time in retreat and then lives in the Formation House, to the concept of family/community as it is lived by the Servants of the Paraclete.

The length of time for this Associate Phase is normally nine months but can be depending upon the person's intentions, the decision of the community and circumstances. It will not be longer than two years.

An Associate participates fully in community life and prayer, spends at least one hour daily in prayer and reflective reading, shares a weekly conference with the Associate Director and engages in outside work, ministry or schooling. If the Congregation provides tuition for schooling, etc. during this period, the Associate is asked to sign a Promissory Note promising to reimburse the Congregation for expenses incurred upon deciding to leave.

The Associate prepares for classes and discussions, maintains physical fitness, engages in creative activities and participates in any inter-community formation experience that might be available.

PHASE TWO: NOVITIATE

The Novitiate, a time for deepening formation in the spirituality of the Servants of the Paraclete, is for a period of two years. Upon acceptance, the Novice begins living with a Servant of the Paraclete, receives the Habit of the Congregation and assumes responsibility for being a Servant.

The Novice lives for one year in the novitiate and spends the other year in apostolate or experiencing one or more of our programs first hand. During the year in Novitiate the Novice experiences the various aspects of our life, study, and participation in community spiritual life. He studies intently the Constitutions, the Vows, Scripture, Spiritual writings, attends workshops and seminars arranged by the Novice Director.

PHASE THREE: TEMPORARY PROFESSION

A Religious may live under temporary profession from three to seven years. The purpose of this time is to provide the experience of entering even more deeply into the life of the Servants of the Paraclete before pronouncing perpetual Vows. Often, this is for continued education in Theology, Psychology, Spirituality or for receiving necessary training to engage in the apostolate of the Congregation. This is also a time for a priesthood candidate to receive the necessary training for Ordination.

--

Servants of the Paraclete 1 *continued*

For a Servant of the Paraclete, formation never ends. After a person makes final profession of Vows, on-going formation and education are critical to our life and work. Continued formation training by way of workshops, retreats, seminars, renewal programs, sabbaticals, degrees, etc., is encouraged.

All members, both priests and brothers, are given the necessary training to help them minister as fulfilled members of the Congregation. We assess our own needs, the needs of the Church and the needs of the individual Servant of the Paraclete by suggesting certain training possibilities. A man may come to us with specific skills and talents. He is encouraged to develop these in assisting priests and brothers. To grow as a person is to grow as a Servant of the Paraclete.

Men interested in the Congregation of the Servants of the Paraclete must have the following:

- 1) Commitment to the call of Jesus Christ.
- 2) A person who loves self and others.
- 3) A person of prayer.
- 4) A person who is in good physical and emotional health.
- 5) A person with a sense of humor.
- 6) A person who is willing to serve Christ in his fellow priests and brothers.
- 7) A person who is willing to live a familial community life style with others.

Fr. Edito “Ed” Amora (D’Amora)

D’Amora was included on the “List of Priests Against Whom There are Credible Allegations” released by the Diocese of San Diego, and in 2010 his personnel file was released along with that of other priests involved in the 2008 San Diego settlement. Fr. Saul Ayala

Ordination: 1971

Notes: After being ordained in 1971, Fr. Saul Ayala worked in and around San Bernardino for three decades before being accused of sexual harassment and misconduct involving a minor in June of 2002. Following the allegation he was placed on administrative leave, permanently banned from ministry in the Diocese, and allegedly moved to Mexico. Three months after the first accusation, two sisters filed a lawsuit claiming Fr. Ayala had sexually abused them as children from approximately 1988 to 1989. At the time of the alleged abuse, Fr. Ayala was assigned to Our Lady of Guadalupe Church

in San Bernardino and was also performing services at the Holy Family Catholic Church in Hesperia. The mother of the sisters who were allegedly sexually abused had allegedly reported the incidents to the Church in Hesperia back in 1988 and 1989, but nothing was done. The Diocese of San Bernardino eventually settled the case. The Diocese of San Bernardino listed Fr. Ayala as a priest with allegations of child sexual abuse “for which settlements were paid, but credibility not verified.” Fr. Ayala’s current whereabouts and whether he has access to children are unknown.

Fr. Edward L. Ball, M.S.C.

Ordination: 1966

Notes: Fr. Edward Ball began his career in Pennsylvania and worked there for nearly a decade and a half before moving to San Bernardino. In 1992, Fr. Ball was indicted on 4 counts of abuse of minors and removed from ministry. He pleaded guilty and no contest to two of the four counts and was sentenced to 9 months in jail and 5 years of probation. In 1994, two boys filed a lawsuit against Fr. Ball, which was settled out of court. In 1999, Fr. Ball was charged with 31 counts of sexual assault in connection with alleged abuse of two altar boys over a decade previously in San Bernardino County. Fr. Ball pleaded no contest and

was sentenced to three years in prison. The same alleged victims also filed a civil lawsuit against the Diocese of San Bernardino, the Missionaries of the Sacred Heart, and Fr. Ball which was settled by the Diocese and the Missionaries of the Sacred Heart in 2003. The alleged victims subsequently won a verdict against Fr. Ball. Fr. Ball was included in the Diocese of San Bernardino's list of clergy credibly accused of child sexual abuse. He was believed to be living in Robertsville, Missouri as of 2008. According to the Diocese of San Bernardino, Fr. Ball is deceased.

Fr. Peter Covas

Ordination: 1957

Notes: After a voluntary review of internal files in 2002, the Diocese of San Bernardino supplied the police with a list of 20 priests who were allegedly guilty of sexual abuse. One of the names on that list was Fr. Covas. Following the report, a man stepped forward accusing Fr. Covas of sexually abusing him from the time he was 14 up until he was 25. Fr. Covas was not charged with any crimes. However, the San Bernardino Sheriff's Department did release a report which revealed that Fr. Covas had a history of sexual malfeasance: in 1987, Fr. Covas was arrested for public masturbation, and a

year later, in 1988, Fr. Covas was again arrested, this time for disorderly and lewd conduct in public. According to the Diocese of San Bernardino, it had no knowledge and there was no record of Fr. Covas' arrests. The lawyer who represented Fr. Covas, Bill Lemann who had represented the diocese for years, disagreed and stated that he had told the Bishop Philip Straling, then head of the diocese, of Fr. Covas' convictions. In light of the newly released information about Fr. Covas' criminal history, he was barred from ministry. But less than a year later, in 2004, Fr. Covas was reinstated as a retired priest in good standing. Shortly thereafter, Fr. Covas died. Fr. Covas is included in the Diocese of San Diego's list of priests where the Diocese has received a credible allegation involving sexual abuse of a minor.
